

M/S. SANTOSHI ENTERPRISES

Engineers & Contractors

ORGANIZATION BRIEF

→ Achieving successful completion of construction project in stipulated time period during the past 8 years particularly building projects

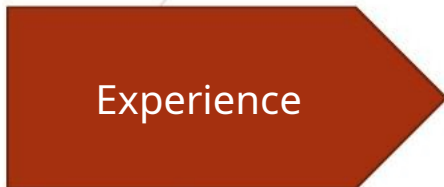

→ The complexity of construction today, combined with the size of an owner's investment, has magnified the importance of successful project completion.

Dependable, predictable & efficient performance thus becomes the barometer by which a construction company is selected. In these areas M/S SANTOSHI ENTERPRISES. has few peers

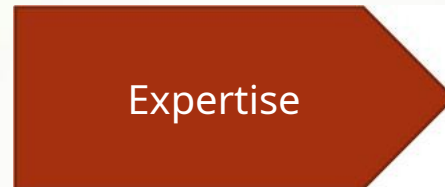

Corporate Vision

3E

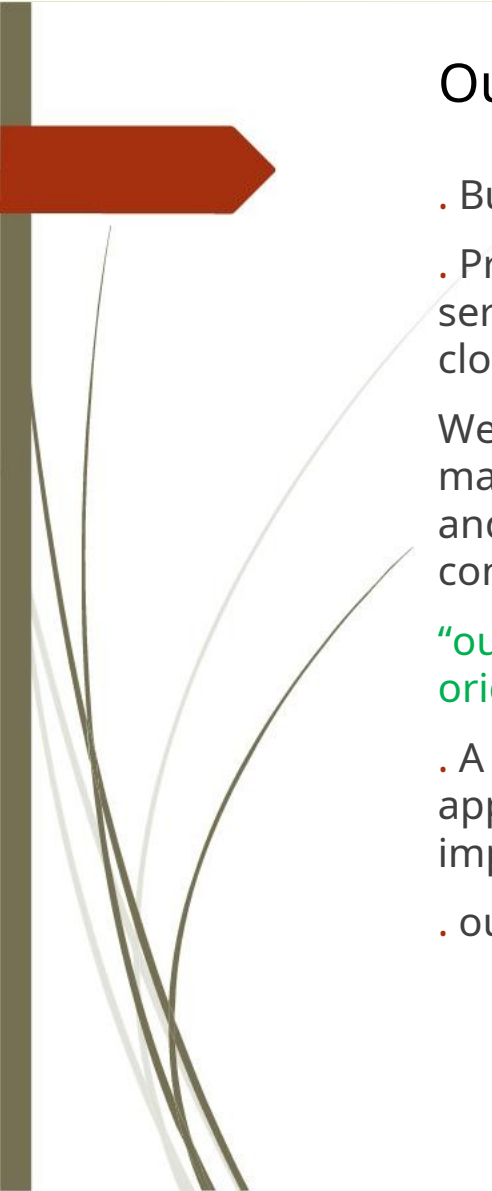

Experience

Expertise

Excellence

Our Services

- . Building & Infrastructure projects
- . Professional & effective construction project execution and management services applied to all phases of a construction project, from concept to close-out

We are your "eyes , ears & hands" on the job, establishing reporting systems, managing system controls, execution & evaluating subcontractor productivity and conducting regular on evaluating subcontractor productivity and conducting regular on site progress meetings.

"our approach is to consider owner as partner i.e we are more as partner oriented towards client rather than contract oriented."

- . A comprehensive practice of professional construction execution services applied to the planning and construction of large, multi project capital improvement programs
- . ours administrative and field personnel assure that you're getting your value and that everything is done in a timely flow."

Our Services

DOCUMENT CONTROL
